\$100 Million Private Placement & \$50 Million Senior Debt Facility
Antalpha Anchors Aurelion Treasury, Exclusively in Tether Gold (XAU₮) for Resilience and Transparency*

SINGAPORE, Oct. 10, 2025 (GLOBE NEWSWIRE) -- **Antalpha Platform Holding Company** (NASDAQ: ANTA) ("Antalpha"), a leading institutional digital asset financing platform, today announced that it has invested approximately \$43 million as lead investor and acquired controlling voting rights in Prestige Wealth Inc. (NASDAQ: PWM; AURE) ("Aurelion" or the "Company") through participation in a committed private investment in public equity ("PIPE"), alongside accredited investors including TG Commodities S.A. de C.V. ("Tether") and Kiara Capital Holding Limited ("Kiara Capital"), invested by Antalpha's management. The Company (NASDAQ: PWM) is expected to be renamed as "Aurelion Inc.", subject to approvals, and will trade under the new ticker (NASDAQ: AURE) beginning Monday, October 13, 2025.

"We are excited to collaborate with Tether, the largest stablecoin company in the world, to expand the trusted digital gold ecosystem. Digital assets will be more tangible to many when one can walk into a jewelry store and redeem a gold bar with Tether Gold (XAU₮). Through *Antalpha RWA Hub*, we hope to deliver new capabilities and services like this that will increase the liquidity and product offerings of Tether Gold (XAU₮)," said Paul Liang, CFO of Antalpha.

"Adding to *Antalpha RWA Hub*, we are excited to anchor Aurelion Treasury, the first pure-play NASDAQ Tether Gold (XAU₮) Treasury, to increase access to tokenized gold, which has strategic importance in the digital asset world. People and institutions need a safe haven to safeguard against inflation, fiat currency devaluation and crypto volatility. As a leading digital asset financing platform, Antalpha has common interest to fortify our own balance sheet with a significant gold reserve through Tether Gold (XAU₮) to improve collateral resilience," continued Paul Liang.

Strategic Rationale

Antalpha Reserve 2.0 builds on Antalpha's pilot program earlier this year when it acquired \$20 million of Tether Gold (XAU₮). In early October, we announced a collaboration with Tether to launch *Antalpha RWA Hub* to increase access to Tether Gold (XAU₮). The \$43 million PIPE lead investment in Aurelion Treasury represents the next phase of *Reserve 2.0*: scaling Antalpha's Tether Gold (XAU₮) reserve with institutional infrastructure, governance and transparency.

Gold has served as the ultimate benchmark of value for more than 5,000 years, consistently providing a natural hedge amid macroeconomic volatility and political uncertainty. Its negative correlation to the U.S. dollar index (DXY) amidst global crises and inflationary cycles as well as serving as a safe haven to crypto volatility highlight the value of gold on the blockchain.

Tether Gold (XAU₮) addresses these vulnerabilities by being 100% physically backed and redeemable for LBMA-standard bullions stored in Switzerland. Since launching in 2020, approximately 7 tons of gold have been acquired to back Tether Gold (XAU₮), providing institutional-grade transparency, verifiability and liquidity. By committing to Tether Gold (XAU₮) as Aurelion's sole treasury reserve, Antalpha aims to smooth volatility, preserve liquidity and increase collateral resilience, which supports Antalpha's management philosophy of risk management first.

Transaction Highlights

Antalpha invested approximately \$43 million in Aurelion's approximately \$100 million PIPE, along with accredited investors, including Kiara Capital for \$6 million and Tether for \$15 million. Following this transaction, Antalpha holds a stake of approximately 32.4% (or approximately 73.1% of the voting rights) and Kiara Capital holds a stake of approximately 8.6% (or approximately 18.9% of the voting rights) in Aurelion, based on the Company's outstanding shares and assuming no exercise of PIPE warrants. With plans to continue fundraising to purchase additional Tether Gold (XAU₮), Aurelion believes its concentrated shareholding can provide more stability and ensure smoother operations.
