## Antalpa Reports First Quarter 2025 Results

SINGAPORE, June 17, 2025 (GLOBE NEWSWIRE) -- - Antalpa Platform Holding Company (“Antalpa” or the “Company”) (NASDAQ: ANTA), a leading fintech platform serving the Bitcoin mining ecosystem, today announced its unaudited financial results for the first quarter ended March 31, 2025.

“Antalpa is off to a great start in 2025 with first quarter revenue growing 41% and net income growing 423% year over year. The scalability of Antalpa Prime’s fintech platform has enabled us to grow profitability faster than revenue. On top of our strong core business, the Company is exploring new areas of digital asset lending, including enabling our partners to provide Ethereum-collateralized loans and our clients to finance GPUs for AI inference computing,” said Paul Liang, chief financial officer of Antalpa.

### First Quarter 2025 Financial and Operational Highlights

### Business Highlights

- Antalpa has purchased approximately US\$20 million in XAUt to date, as part of its digital gold treasury strategy. This creates a strategic hedge against macroeconomic volatility and further strengthen the resilience of the collateral pool of the Company. The Company is unique in the deployment of a gold treasury strategy, in that it is synergistic to its core business. Acquiring digital gold will not only improve Antalpa’s risk management, it will also pave the way for expansion into new businesses.
- The Company raised US\$56.7 million gross proceeds, from the issuance of 4.4 million shares through its IPO on NASDAQ on May 14, 2025. As a strategic investor, Tether purchased 1.9 million shares, representing 8.1% of the Company’s ordinary shares immediately after the IPO, from the IPO offering.

### First Quarter 2025 Financial Results

**Total revenue** was US\$13.6 million, increasing 41% year over year.

- **Tech platform fee** (on Bitcoin loans) was US\$3.5 million, increasing 286% year over year.
- **Tech financing fee** (on supply chain loans) was US\$10.1 million, increasing 15% year over year.

**Operating expenses** totaled US\$12.4 million, increasing 30% year over year.

- **Funding cost** was \$6.6 million, increasing 18% year over year.
- **Non-funding operating expenses** were US\$5.8 million, increasing 47% year over year, primarily due to an increase in labor expenses, professional services and share-based compensation.

**Operating income** was US\$1.2 million, compared to US\$0.1 million for the same period last year, reflecting the scalability of the Antalpa Prime platform.

**Net income** was \$1.5 million, increasing 423% year-over-year. **Non-GAAP net income** was US\$1.8 million, increasing 554% year-over-year. **Adjusted EBITDA** (non-GAAP) was \$2.5 million, increasing 392% year-over-year. For more information regarding non-GAAP net income and adjusted EBITDA, see “Non-GAAP Measures” and “Reconciliations of non-GAAP financial measures to the nearest comparable GAAP measures.”

### Financial Guidance

For the second quarter of 2025, Antalpa expects revenues to be between US\$16 million and US\$17 million, representing a growth rate of 40% to 50% year over year, assuming Bitcoin price remains at the \$100,000 level.

The above forecast is based on the current market conditions and reflects Antalpha’s current and preliminary view, which is subject to substantial uncertainties. The Company does not undertake any obligation to update any forward-looking statements, except as required by law.

### Non-GAAP Measures

In addition to financial measures presented under generally accepted accounting principles in the United States, or GAAP, Antalpha evaluates non-GAAP financial measures such as non-GAAP operating income, non-GAAP net income, adjusted EBITDA and adjusted EBITDA margin.

The Company believes these adjustments eliminate the effects of certain non-cash and/or non-recurring items that the Company believes complements management’s understanding of its ongoing operational results. However, non-GAAP measures are presented for supplemental informational purposes only, have limitations as an analytical tool, and should not be considered in isolation or as a substitute for financial information presented in accordance with GAAP. In addition, other companies, including companies in its industry, may calculate similarly titled non-GAAP measures differently or may use other measures to evaluate their performance, all of which could reduce the usefulness of its non-GAAP financial measures as tools for comparison. Antalpha will continually evaluate the usefulness of such metrics. The Company believe that non-GAAP measures may be helpful to investors because they provide consistency and comparability with past financial performance and with how management views its financial performance.

Adjusted EBITDA (non-GAAP) represents net income before interest (if non-operating), taxes, depreciation and amortization, and share-based compensation expenses. Its funding cost is an operating item and a significant component of its business. As such, it is not excluded from adjusted EBITDA (non-GAAP). Adjusted EBITDA Margin represents the ratio between adjusted EBITDA and revenue.

Non-GAAP net income represents net income before share-based compensation expenses. Non-GAAP operating income represents operating income before share-based compensation expenses.

For more information on non-GAAP financial measures, please see “Reconciliations of non-GAAP financial measures to the nearest comparable GAAP measures.”
